### Section 7. Procedures for Safe Handling and Use

<u>Spill Response:</u> Keep spectators away. Floor may be slippery; use care to avoid falling. Contain spills immediately by diking with inert material (e.g., sand, earth). Transfer liquid and solid diking material to separate suitable containers for recovery or disposal. Keep spills and cleaning runoffs from entering municipal sewers or open bodies of water.

<u>Waste Disposal Method:</u> Coagulate the emulsion by the stepwise addition of ferric chloride and lime. Remove the clear supernatant liquid and flush to a chemical sewer. Incinerate liquid and contaminated solids according to federal, state and local regulations.
